

Salihah Banu

Junior Architect specializing in residential villa design and landscape design, with hands-on experience in managing projects from 2D layouts through to detailed 3D visualizations. At Ab18 Studio, I have worked closely with clients, translating their requirements into creative and functional design solutions. I am committed to producing high-quality work and am actively developing my expertise in BIM, technical documentation, and sustainable design to contribute effectively to innovative architectural projects in Oman.

AGPA: 3.57

12th Grade Science – Indian School Wadi Kabir, Muscat, Oman (2019)

82%

Experience

Junior Architect — Ab18 Studio, Muscat, Oman

Feb 2025 – Present

- Independently managed architectural projects from initial 2D layouts to detailed 3D visualization.
- Lead client meetings, gather requirements, and provide tailored design solutions.
- Specialize in villa, exterior, and landscape design, ensuring both functionality and aesthetics.
- Produce high-quality conceptual designs, photo-realistic 3D renderings, and technical layouts using AutoCAD, SketchUp and D5 Renderer.

Architectural Intern — Ab18 Studio, Muscat, Oman
Sept 2024 – Jan 2025

- Supported senior architects in landscape and concept design projects.
- Produced 3D visualizations to communicate design intent for residential projects.
- Assisted in preparing presentation drawings, layouts, and mood boards for clients.

Concept Design Assistant Intern — Amjaad Holding Group, Muscat, Oman
Jul 2023 – Aug 2023

- Contributed to the design concept for the Bahrain Embassy project in Muscat.
- Assisted in developing schematic layouts and presentation materials for stakeholders.

Skills

- Architectural Design & Visualization: SketchUp, D5 Renderer, Enscape, 3ds Max, Corona and Lumion
- Drafting & Documentation: AutoCAD, Revit (BIM modeling, working drawings, technical detailing)
- Graphic & Presentation Tools: Adobe Photoshop, Adobe Illustrator, Microsoft PowerPoint
- Landscape & Exterior Design: Concept development, material selection, site planning
- Project Coordination: Client handling, contractor collaboration, supplier coordination
- Sustainability (Developing Knowledge): Awareness of LEED, Estidama, and green building practices
